PROVISIONAL ELECTION

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the Election of Species Requirement dated October 2, 2001, Applicants provisionally elect with traverse Group II, Claims 17-24, drawn to a plastic molding for examination on the merits.

The Restriction Requirement asserts that the application contains claims to distinct inventions. However, MPEP §803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area. Accordingly, Applicants respectfully traverse the Restriction Requirement on the grounds that a search and examination of the entire application would not place a serious burden on the Examiner.

Therefore, it is respectfully requested that the Restriction Requirement be withdrawn, and that each of Claims 1-29 be examined on the merits in the present application.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
